

DIVYAM ASHOK PATRO

Dallas, TX | (945) 244-9417 | divyampatro5@gmail.com | [LinkedIn](#) | [GitHub](#) | [Website](#) | [Blog](#) | [X](#)

Full-stack engineer with 4+ years of experience transitioning into AI-focused roles, building intelligent systems at the intersection of software and AI.

EXPERIENCE

Paycom

Irving, TX

Software Development Engineer | Node.js, React.js, TypeScript, PostgreSQL, AWS, Docker

May 2024 – Present

- Designed and optimized **RESTful APIs** using **Node.js** and **.NET Core**, streamlining automated tax reporting workflows and reducing response latency by **50%** for **2,000+** payroll specialists.
- Led front-end modernization with **React.js** and **TypeScript**, enhancing component reusability and cutting load times by **35%** while architecting containerized **microservices** on **AWS** achieving **99.9%** uptime.
- Implemented **Docker-based CI/CD** pipelines that standardized development environments, cut deployment times by **30%**, and optimized **PostgreSQL** queries to boost throughput for high-volume tax computation workloads.

Paycom

Irving, TX

Software Developer Intern | React.js, TypeScript, Node.js, Express.js, PostgreSQL

May 2023 – August 2023

- Developed a **full-stack CRM** web application using **React**, **TypeScript**, **Node.js**, and **PostgreSQL**, enabling automated client data synchronization and reducing manual data entry by **50%** across sales teams.

Aditya Birla Management Corporation Pvt. Ltd.

Bengaluru, India

Data Scientist | Python, ARIMA, Random Forest, Power BI, SQL

August 2020 – April 2022

- Implemented **machine learning** forecasting models (**ARIMA**, **Random Forest**) to predict SKU-level demand across **400+** retail outlets, improving inventory allocation accuracy by **18%**.
- Built **automated data ingestion pipelines** in **Python** to process retail transaction data and delivered executive-level **Power BI** dashboards providing real-time insights into sales trends and demand fluctuations.

TECHNICAL SKILLS

Programming Languages: JavaScript/TypeScript, Python, C#

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, .NET Core, Flask, Zustand, Context API

Agentic AI: Google ADK, MCP, LiteLLM

Others: AWS, Docker, PostgreSQL, MongoDB, MySQL, DynamoDB

PROJECTS

Building Agents with Google ADK | *Python, Google ADK, MCP, Claude Sonnet 4.6, LiteLLM* | [Code](#) | [Blog](#)

- Built a custom **MCP** server wrapping **Google ADK** FunctionTools, enabling tool reuse across any MCP-compatible AI framework without rewriting tool logic; integrated **Claude Sonnet 4.6** via **LiteLLM** to decouple LLM choice from agent architecture.
- Implemented **stdio MCP transport** with runtime tool discovery — the agent enumerates available tools dynamically via MCP rather than hardcoded bindings, enabling model swapping at the configuration level.

Space Finder | *AWS CDK, TypeScript, React 19, Lambda, DynamoDB, Cognito, CloudFront* | [Code](#) | [Live Demo](#) | [Blog](#)

- Built a **serverless** full-stack app on **AWS** with **infrastructure-as-code** across six **CDK** stacks, featuring direct browser-to-**S3** uploads via **Cognito** federated credentials and per-user data isolation at the **DynamoDB** query level.
- Deployed the **React** SPA via **CloudFront** with automated cache invalidation on each release; implemented **CloudWatch** and **SNS** monitoring for real-time API error alerting.

ACHIEVEMENTS

Winner, HackUTD X | *CBRE Track, Biggest Hackathon in Texas* | [Devpost](#)

Nov. 2023

Dean's Excellence Scholarship | *Top 1% of class, UT Dallas*

2022

EDUCATION

The University of Texas at Dallas | Master of Science in Computer Science | GPA: 3.93/4.0 2022 – 2024

BITS Pilani | B.E. Chemical Engineering & M.S. Economics (Dual Degree) | GPA: 7.7/10 2015 – 2020
